TIME AND CONDITIONS OF ADMISSION.

EXAMINATIONS for admission to the Freshman class take place on the last Friday of the second term, (July 8th, 1864,) and on the Thursday of Commencement week, (September 8th.) The candidates assemble in No. 12 University Hall, at 8 o'clock, A. M.

The regular examination for admission to the other classes of the University, is held on Saturday of Commencement week, (September 10th, 1864.)

There will also be an examination for admission to advanced standing in the several classes, on the first Saturday of the second term, (February 13th, 1864,) commencing at 9 o'clock, A. M.

Candidates for admission to the Freshman class are examined in Arithmetic, and Algebra as far as Quadratic Equations,

Ancient and Modern Geography,

English Grammar, and the use of the English Language,

Hadley's Greek Grammar, the Syntax and Greek Selections in Harkness' "First Greek Book," and Four Books of Xenophon's Anabasis, or an equivalent portion of some classical Greek Author, and in writing Greek,

Latin Grammar, Cæsar's Commentaries, the Æneid of Virgil, Six Orations of Cicero, Latin Prosody, and in writing Latin.

The examination is both oral and in writing. It is necessary that all candidates be thoroughly prepared, especially in the knowledge of Greek and of Latin Grammar; and that they be versed in Latin and in Greek Composition.

Candidates for admission to the three years' course of instruction are examined as above, if they pursue classical studies ; otherwise they are examined only in Arithmetic, Algebra, English Grammar, and Modern Geography.

Students who wish to pursue a select course, without entering as candidates for a degree, must be examined in the above mentioned English branches.

No student can be admitted as a candidate for matriculation, unless he bring suitable testimonials of good moral character ; and if he come from another college or an academy, he must also present a certificate of good standing in the institution which he has left, and of regular dismission from it.

The earliest age at which, in general, it will be advantageous for a student to enter the University, is at the completion of the fifteenth year ; the President is, however, authorized to matriculate a student at an earlier age, provided sufficient and peculiar reasons exist, and his parent or guardian places him under such moral supervision as is satisfactory to himself.

Third Year. Intellectual and Moral Philosophy, History, required studies ; German, Rhetoric, Chemistry applied to the Arts, Geology and Political Economy, elective.

CHEMISTRY APPLIED TO THE ARTS.

It is the design of this department to afford facilities for the acquisition of a practical knowledge of the science of chemistry, including its application to the Arts. Within the past year, these facilities have been greatly increased.

A spacious Laboratory has been erected for the use of this department, and is fitted up with all the most approved modern appliances of the science.

The course of instruction is intended to meet the wants of all classes of business and of professional men.

Particular attention is given to the Chemistry of Agriculture, Medicine, Pharmacy, Metallurgy and of manufacturing processes.

Encouragement will be extended to advanced students who may desire to make original researches.

Any person, who is prepared to pursue these studies with advantage, may be admitted as a special student.

The Laboratory is open each day of the week, from 9 A. M. until 5 P. M.

LIBRARIES.

The University Library is in Manning Hall, and contains, at present, thirty thousand volumes. It is constantly increasing from the proceeds of a permanent fund of \$25,000 established for this purpose in 1839. The Library is open four hours daily, from 9 A. M. till 1 P. M. In addition to the University Library, the Libraries of the Philermenian and the United Brothers' Societies, comprise, together, six thousand volumes, accessible to all the students of the University.

ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

A Fund, derived from a bequest made to the University by the late Hon. Nicholas Brown, has been applied, by the Corporation, to the founding of eleven Scholarships, called the Nicholas Brown Scholarships. The income of these Scholarships is given, under the direction of the Executive Board, to meritorious students who may need pecuniary assistance.

Twenty-four other scholarships have been recently established by contributions of friends of the college, the income of which is already available; and special efforts are now making by which, it is hoped, the number of these foundations will be largely increased.

THE PRESIDENT'S PREMIUMS.

These premiums are derived from the income of a donation, made by the Rev. Dr. Wayland, while President of the University. They are awarded to those members of the Freshman Class who are found, upon a special examination, to have attained the highest excellence in the classical studies, preparatory to admission to college. They are fixed by the statutes, as follows :

A First Premium of fifteen dollars, and a second of ten dollars, for excellence in the Greek language.

A First Premium of fifteen dollars, and a second of ten dollars, for excellence in the Latin language.

The examination is held on the first Monday of the first collegiate term. The competitors are examined in Latin and in Greek Grammar, in writing Latin and Greek, and in the first six books of the *Æneid* of Virgil, and in the first three books of Xenophon's *Anabasis*.

The premiums have this year been awarded as follows :

The First Premium in Latin to Freeborn Coggeshall, Jr., instructed by Mr. John J. Ladd, in the Providence High School.

The Second premium in Latin to Francis S. Goff, instructed by Mr. Charles B. Goff, in the Fall River High School.

Also, a Second Premium in Latin to Charles T. Dorrance, instructed by Mr. Merrick Lyon, in the University Grammar School.

The First Premium in Greek to Francis S. Goff, instructed by Mr. Charles B. Goff, in the Fall River High School.

The Second premium in Greek to Charles T. Dorrance, instructed by Mr. Merrick Lyon, in the University Grammar School.

Also, a Second Premium in Greek to Freeborn Coggeshall, Jr., instructed by Mr. John J. Ladd, in the Providence High School.

EXERCISES IN ELOCUTION AND COMPOSITION.

The Junior Class has regular exercises in Declamation. Each member of this class is required to deliver an original speech once a month. Members of the Junior and Sophomore Classes pursuing the Study of Rhetoric, are required to present Essays once a fortnight.

PUBLIC WORSHIP.

The exercises of every day commence with Prayers, in the College Chapel. All students are also required to attend public worship twice on Sunday. For this purpose, each one reports to the President, at the beginning of the term, the church which he will attend.

EXPENSES.

There are two terms of study in each year; and the term bills are paid in advance, and at the commencement of the term.

If a student is matriculated as a candidate for a degree, he is charged a fee of \$5,00.

The College expenses for a year are as follows :

Tuition, \$18,00 per term.....	\$36 00
Room rent, \$4,50 per term.....	9 00
Servant's hire, \$1,50 per term to \$3,50.....	7 00
Use of Library, \$1,50 per term.....	3 00
Register's salary, \$2 00 per term.....	4 00
Repairs, from \$1,75 to \$2,00 per term.....	4 00
Public Fuel, from \$1,75 to \$2,00 per term.....	4 00
	\$67 00

If a student occupy a room alone, his rent and servants' hire are doubled.

Board is not furnished in College. The Register keeps a list of the names of families in the city, by whom Board, and Board and Lodging are furnished to students at the following rates :

Board at from \$2,25 to \$3,00 per week. Board and Lodging, with furnished rooms, in some cases washing or fuel included, from \$3,50 to \$4,50 per week.

The above estimate for tuition does not include the fees for instruction in Chemistry applied to the Arts. For the full course in this

department, the fee is \$30,00 per term. But the students who pursue the studies of this department in connection with those of the other departments of the College, or persons not pursuing other studies in College, who devote only a portion of their time to this department, pay a fee in proportion to the time occupied.

All the apparatus required in the Chemical Laboratory will be furnished the student and charged in his account, and the charge cancelled for that which is returned in good condition.

Charge for Chemicals, Alcohol, Gas, and all other materials required, use of apparatus, fuel and other current expenses, per term.....	\$55 00
--	---------

This charge is intended merely to cover the average cost. If the cost falls below the charge specified, the deduction will be made accordingly.

TIME AND CONDITIONS OF ADMISSION.

EXAMINATIONS for admission to the Freshman class will take place on Friday, July 14th, 1865, and on the Thursday of Commencement week, September 7th. The candidates assemble in No. 12 University Hall, at 8 o'clock, A. M.

The regular examination for admission to the other classes of the University is held on Saturday of Commencement week, September 9th, 1865.

There will also be an examination for admission to advanced standing in the several classes, on the first Saturday of the second term, February 18th, 1865, commencing at 9 o'clock, A. M.

Candidates for admission to the Freshman class are examined in Arithmetic, and Algebra as far as Quadratic Equations, Ancient and Modern Geography,

English Grammar, and the use of the English Language,

Hadley's Greek Grammar, the Syntax and Greek Selections in Harkness's "First Greek Book," and Four Books of Xenophon's Anabasis, or an equivalent portion of some classical Greek author, and in writing Greek,

Harkness's Latin Grammar, Cæsar's Commentaries, the Æneid of Virgil, Six Orations of Cicero, Latin Prosody, and in writing Latin.

The examination is both oral and in writing. It is necessary that all candidates be thoroughly prepared, especially in the knowledge of Greek and of Latin Grammar; and that they be versed in Latin and in Greek Composition.

Candidates for admission to the three years' course of instruction are examined as above, if they pursue classical studies ; otherwise they are examined only in Arithmetic, Algebra, English Grammar, and Modern Geography.

Students who wish to pursue a select course, without entering as candidates for a degree, must be examined in the above mentioned English branches.

No student can be admitted as a candidate for matriculation, unless he bring suitable testimonials of good moral character ; and if he come from another college or an academy, he must also present a certificate of good standing in the institution which he has left, and of regular dismissal from it.

The earliest age at which, in general, it will be advantageous for a student to enter the University, is at the completion of the fifteenth year ; the President is, however, authorized to matriculate a student at an earlier age, provided sufficient and peculiar reasons exist, and his parent or guardian places him under such moral supervision as is satisfactory to himself.

Third Year. Intellectual and Moral Philosophy, and History, required studies ; German, Rhetoric, Chemistry, Geology and Political Economy, elective.

If classical studies are not pursued, the course is as follows :

First Year. French, Chemistry, Physiology, Geometry and Algebra.

Second Year. Natural Philosophy, Rhetoric, as required studies ; Trigonometry, Chemistry applied to the Arts, Geology and Political Economy, elective.

Third Year. Intellectual and Moral Philosophy, History, required studies ; German, Rhetoric, Chemistry applied to the Arts, Geology and Political Economy, elective.

CHEMISTRY APPLIED TO THE ARTS.

It is the design of this department to afford facilities for the acquisition of a practical knowledge of the science of chemistry, including its application to the Arts. Within the past year these facilities have been greatly increased.

A spacious Laboratory has been erected for the use of this department, and is fitted up with all the most approved modern appliances of the science.

The course of instruction is intended to meet the wants of all classes of business and of professional men.

Particular attention is given to the Chemistry of Agriculture, Medicine, Pharmacy, Metallurgy and of manufacturing processes.

Encouragement will be extended to advanced students who may desire to make original researches.

Any person who is prepared to pursue these studies with advantage, may be admitted as a special student.

The Laboratory is open each day of the week, from 9 A. M. until 5 P. M.

LIBRARIES.

The University Library is in Manning Hall, and contains, at present, about thirty-three thousand volumes. It is constantly increasing from the proceeds of a permanent fund of \$25,000 established for this purpose in 1839. The Library is open four hours daily, from 9 A. M. till 1 P. M. In addition to the University Library, the Libraries of the Philermenian and the United Brothers' Societies, comprise, together, six thousand volumes, accessible to all the students in the University.

ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

A Fund, derived from a bequest made to the University by the late Hon. Nicholas Brown, has been applied by the Corporation, to the founding of eleven Scholarships, called the Nicholas Brown Scholarships. The income of these Scholarships is given, under the direction of the Executive Board, to meritorious students who may need pecuniary assistance.

Thirty-four other scholarships have been recently established by contributions of friends of the college, the income of which is already available; and special efforts are now making by which, it is hoped, the number of these foundations will be largely increased.

THE PRESIDENT'S PREMIUMS.

These premiums are derived from the income of a donation, made by the Rev. Dr. Wayland, while President of the University. They are awarded to those members of the Freshman Class who are found, upon a special examination, to have attained the highest excellence in the classical studies, preparatory to admission to college. They are fixed by the statutes, as follows:

A First Premium of fifteen dollars, and a second of ten dollars, for excellence in the Greek language.

A First Premium of fifteen dollars, and a second of ten dollars, for excellence in the Latin language.

The examination is held on the first Monday of the first collegiate term. The competitors are examined in Latin and in Greek Grammar, in writing Latin and Greek, and in the first six books of the *Æneid* of Virgil, and in the first three books of Xenophon's *Anabasis*.

The premiums have this year been awarded as follows :

The First Premium in Latin to William E. Lincoln, instructed by Mr. Merrick Lyon, in the University Grammar School.

The Second Premium in Latin to William H. Lyon, instructed by Mr. Charles B. Goff, in the Fall River High School.

In Greek, two equal First Premiums, the one to William H. Lyon, instructed by Mr. Charles B. Goff, the other to Eugene W. Mason, instructed by Mr. Merrick Lyon.

EXERCISES IN ELOCUTION AND COMPOSITION.

The Junior Class has regular exercises in Declamation. Each member of this class is required to deliver an original speech once a month. Members of the Junior and Sophomore Classes pursuing the Study of Rhetoric, are required to present Essays once a fortnight.

PUBLIC WORSHIP.

The exercises of every day commence with Prayers, in the College Chapel. All students are also required to attend public worship twice on Sunday. For this purpose, each one reports to the President, at the beginning of the term, the church which he will attend.

EXPENSES.

There are two terms of study in each year ; and the term bills are paid in advance, and at the commencement of the term.

If a student is matriculated as a candidate for a degree, he is charged a fee of \$5.00.

The College expenses for a year are as follows :

Tuition, \$25.00 per term.....	\$50 00
Room rent, \$4.50 per term.....	9 00
Use of Library, \$1.50 per term.....	3 00
Register's salary, \$2.00 per term.....	4 00
	\$66 00

Public Fuel, Servants' hire, and repairs will be charged at cost.

If a student occupy a room alone, his rent and servants' hire are doubled.

Board is not furnished in College. The Register keeps a list of the names of families in the city, by whom Board, and Board and Lodging are furnished to students at the following rates :

Board at from \$2.25 to \$3.00 per week. Board and Lodging, with furnished room, in some cases washing or fuel included, from \$3.50 to \$4.50 per week.

The above estimate for tuition, does not include the fees for instruction in Chemistry applied to the Arts. For the full course in this department, the fee is \$15.00 per term. But the students who pursue the studies of this department in connection with those of the other

departments of the College, or persons not pursuing other studies in College, who devote only a portion of their time to this department, pay a fee in proportion to the time occupied.

All the apparatus required in the Chemical Laboratory will be furnished the student and charged in his account, and the charge cancelled for that which is returned in good condition.

Chemicals, Alcohol, Gas, and all other materials required, and also fuel, will be charged according to the average cost.

TIME AND CONDITIONS OF ADMISSION.

EXAMINATIONS for admission to the Freshman class will take place on Friday, July 13th, 1866, and on the Thursday of Commencement week, September 6th. The candidates assemble in No. 12 University Hall, at 8 o'clock A. M.

The regular examination for admission to the other classes of the University is held on Saturday of Commencement week, September 8th, 1866.

There will also be an examination for admission to advanced standing in the several classes, on the first Saturday of the second term, February 17th, 1866, commencing at 9 o'clock, A. M.

Candidates for admission to the Freshman class are examined in Arithmetic, and Algebra as far as Quadratic Equations, Ancient and Modern Geography,

English Grammar, (Greene's is preferred,) and the use of the English Language,

Greek Grammar, (Hadley's is preferred,) the Syntax and Greek Selections in Harkness's "First Greek Book," and Four Books of Xenophon's Anabasis, or an equivalent portion of some classical Greek author, and in writing Greek,

Latin Grammar, (Harkness's is preferred,) Cæsar's Commentaries, the Æneid of Virgil, Six Orations of Cicero, Latin Prosody, and in writing Latin.

The examination is both oral and in writing. It is necessary that all candidates be thoroughly prepared, especially in the knowledge of Greek and of Latin Grammar; and that they be versed in Latin and in Greek Composition.

Candidates for admission to the three years' course of instruction are examined as above, if they pursue classical studies; otherwise they are

examined only in Arithmetic, Algebra, English Grammar, and Modern Geography.

Students who wish to pursue a select course, without entering as candidates for a degree, must be examined in the above mentioned English branches.

No student can be admitted as a candidate for matriculation, unless he bring suitable testimonials of good moral character ; and if he come from another college or an academy, he must also present a certificate of good standing in the institution which he has left, and of regular dismissal from it.

The earliest age at which, in general, it will be advantageous for a student to enter the University, is at the completion of the fifteenth year ; the President is, however, authorized to matriculate a student at an earlier age, provided sufficient and peculiar reasons exist, and his parent or guardian places him under such moral supervision as is satisfactory to himself.

A shorter course of instruction, extending through three years, is pursued by those who enter for the degree of Bachelor of Philosophy.

If classical studies are pursued, the course is as follows :

First Year. An Ancient Language, French, Geometry and Algebra.

Second Year. An Ancient Language, and Rhetoric, as required studies ; Trigonometry, and Analytical Geometry, Natural Philosophy, Physiology, elective.

Third Year. Intellectual and Moral Philosophy, and History, required studies ; German, Rhetoric, Chemistry, Geology and Political Economy elective.

If classical studies are not pursued, the course is as follows :

First Year. French, Chemistry, Physiology, Geometry and Algebra.

Second Year. Natural Philosophy, Rhetoric, as required studies ; Trigonometry, Chemistry applied to the Arts, Geology and Political Economy, elective.

Third Year. Intellectual and Moral Philosophy, History, required studies ; German, Rhetoric, Chemistry applied to the Arts, Geology and Political Economy, elective.

CHEMISTRY APPLIED TO THE ARTS.

The Chemical Laboratory is open to students (except on Saturdays) from 9 to 12 A. M. and from 3 to 6 P. M.

It is the design of this department to teach students, first Analytical Chemistry, and then to direct their studies to the practical applications of Chemistry. Particular attention is given to Metallurgy, Pharmacy, Medical Chemistry, and to the applications of Chemistry to Manufacturing processes.

The course is not confined to undergraduates; other persons, if prepared to pursue the study to advantage, are admitted to the Laboratory. A knowledge of General Chemistry, however, is necessary to profitable study in this department.

The expenses for students who take a course of two hours daily, are, (for a term of 20 weeks) as follows:

Tuition	-	-	-	-	-	-	-	-	\$15,00
Charge for Gas, Chemicals, &c.	-	-	-	-	-	-	-	-	18,33
To this must be added, the charges for breakage, (varying									
with the student's care) about									
	-	-	-	-	-	-	-	-	3,00
									<hr/>
									\$36,33

Students who take courses of four hours or of six hours daily, pay respectively double or treble the above amounts.

LIBRARY.

The University Library is in Manning Hall, and contains, at present, about thirty-three thousand volumes. It is constantly increasing from the proceeds of a permanent fund of \$25,000 established for this purpose in 1839. The Library is open four hours daily, from 9 A. M. till 1 P. M.

ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

A Fund, of eleven thousand dollars, derived from a bequest made to the University by the late Hon. Nicholas Brown, has been applied by the Corporation, to the founding of eleven Scholarships, called the Nicholas Brown Scholarships. The income of these Scholarships is given, under the direction of the Corporation, to meritorious students who may need pecuniary assistance.

Thirty-four other scholarships have been established by contributions of friends of the college, the income of which is already available; and special efforts are now making by which, it is hoped, the number of these foundations will be largely increased.

THE PRESIDENT'S PREMIUMS.

These premiums are derived from the income of a donation, made by the late Rev. Dr. Wayland, while President of the University. They are awarded to those members of the Freshman Class who are found, upon a special examination, to have attained the highest excellence in the classical studies, preparatory to admission to college. They are fixed by the statutes, as follows:

A First Premium of fifteen dollars, and a second of ten dollars, for excellence in the Greek language.

A First Premium of fifteen dollars, and a second of ten dollars, for excellence in the Latin language.

The examination is held on the first Monday of the first collegiate term. The competitors are examined in Latin and in Greek Grammar, in writing Latin and Greek, and in the first six books of the *Æneid* of Virgil, and in the first three books of Xenophon's *Anabasis*.

The premiums have this year been awarded as follows:

The First premium in Greek to George Mathewson Smith, instructed by Mr. Merrick Lyon, in the University Grammar School.

Two equal Second Premiums in Greek, the one to Henry F. Grant, the other to Ray G. Huling, both instructed by Mr. Charles B. Goff, in the English and Classical High School, Providence.

The First Premium in Latin to Ray G. Huling, the Second to Osgood C. Baker, both instructed by Mr. Charles B. Goff.

TIME AND CONDITIONS OF ADMISSION.

EXAMINATIONS for admission to the Freshman class will take place on Wednesday, July 3d, 1867, and on the Thursday of Commencement week, September 5th. The candidates assemble in No. 12 University Hall, at 8 o'clock A. M.

The regular examination for admission to the other classes of the University, is held on Friday of Commencement week, September 6th, 1867, at 9 o'clock A. M.

There will also be an examination for admission to advanced standing in the several classes, on the first Saturday of the second term, February 16th, 1867, commencing at 9 o'clock A. M.

Candidates for admission to the Freshman class are examined in Arithmetic, and Algebra as far as Quadratic Equations, Ancient and Modern Geography,

English Grammar, (Greene's is preferred,) and the use of the English Language,

Greek Grammar, (Hadley's is preferred,) the Syntax and Greek Selections in Harkness's "First Greek Book," and Four Books of Xenophon's Anabasis, or an equivalent portion of some classical Greek author, and in writing Greek,

Latin Grammar, (Harkness's is preferred,) Cæsar's Commentaries, the Æneid of Virgil, Six Orations of Cicero, Latin Prosody, and in writing Latin.

The examination is both oral and in writing. It is necessary that all candidates be thoroughly prepared, especially in the knowledge of Greek and of Latin Grammar; and that they be versed in Latin and in Greek Composition.

Candidates for admission to the three years' course of instruction are examined as above, if they pursue classical studies; otherwise they are

examined only in Arithmetic, Algebra, English Grammar, and Modern Geography.

Students who wish to pursue a select course, without entering as candidates for a degree, must be examined in the above mentioned English branches.

No student can be admitted as a candidate for matriculation, unless he bring suitable testimonials of good moral character ; and if he come from another college or an academy, he must also present a certificate of good standing in the institution which he has left, and of regular dismissal from it.

The earliest age at which, in general, it will be advantageous for a student to enter the University, is at the completion of the fifteenth year ; the President is, however, authorized to matriculate a student at an earlier age, provided sufficient and peculiar reasons exist, and his parent or guardian places him under such moral supervision as is satisfactory to himself.

Third Year. Intellectual and Moral Philosophy, and History, required studies ; German, Rhetoric, Chemistry, Geology and Political Economy, elective.

If classical studies are not pursued, the course is as follows :

First Year. French, Chemistry, Physiology, Geometry and Algebra.

Second Year. Natural Philosophy, Rhetoric, as required studies ; Trigonometry, Chemistry applied to the Arts, Geology and Political Economy, elective,

Third Year. Intellectual and Moral Philosophy, History, required studies ; German, Rhetoric, Chemistry applied to the Arts, Geology and Political Economy, elective.

CHEMISTRY APPLIED TO THE ARTS.

The Chemical Laboratory is open to students (except on Saturdays) from 9 to 12 A. M. and from 3 to 6 P. M.

It is the design of this department to teach students, first Analytical Chemistry, and then to direct their studies to the practical applications of Chemistry. Particular attention is given to Metallurgy, Pharmacy, Medical Chemistry, and to the applications of Chemistry to Manufacturing processes.

The course is not confined to undergraduates ; other persons, if prepared to pursue the study to advantage, are admitted to the Laboratory. A knowledge of General Chemistry, however, is necessary to profitable study in this department.

The expenses for students who take a course of two hours daily, are, (for a term of 20 weeks) as follows :

Tuition	-	-	-	-	-	-	-	-	\$15.00
Charge for Gas, Chemicals, &c.	-	-	-	-	-	-	-	-	18.33
To this must be added, the charges for breakage, (varying with the student's care.) about									3.00
									<hr/> \$36.33

Students who take courses of four hours or of six hours daily, pay respectively double or treble the above amounts.

LIBRARY.

The University Library is in Manning Hall, and contains, at present, about thirty-three thousand volumes. It is constantly increasing from the proceeds of a permanent fund of \$25,000 established for this purpose in 1839. The Library is open four hours daily, from 9 A. M. till 1 P. M.

ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

A Fund, of eleven thousand dollars, derived from a bequest made to the University by the late Hon. Nicholas Brown, has been applied by the Corporation, to the founding of eleven Scholarships, called the Nicholas Brown Scholarships. The income of these Scholarships is given, under the direction of the Corporation, to meritorious students, who may need pecuniary assistance.

Thirty-four other scholarships have been established by contributions of friends of the college, the income of which is already available ; and special efforts are now making by which, it is hoped, the number of these foundations will be largely increased.

THE PRESIDENT'S PREMIUMS.

These premiums are derived from the income of a donation, made by the late Rev. Dr. Wayland, while President of the University. They are awarded to those members of the Freshman Class who are found, upon a special examination, to have attained the highest excellence in the classical studies, preparatory to admission to college. They are fixed by the statutes, as follows :

A First Premium of fifteen dollars, and a second of ten dollars, for excellence in the Greek language.

A First Premium of fifteen dollars, and a second of ten dollars, for excellence in the Latin language.

The examination is held on the first Monday of the first collegiate term. The competitors are examined in Latin and in Greek Grammar, in writing Latin and Greek, and in the first six books of the *Æneid* of Virgil, and in the first three books of Xenophon's *Anabasis*.

The premiums have this year been awarded as follows :

The First Premium in Greek, to Arthur Lincoln, instructed by Mr. Merrick Lyon, in the University Grammar School.

The Second Premium in Greek to Richard S. Colwell, instructed by Mr. Charles B. Goff, in the English and Classical High School, Providence.

An additional Second Premium in Greek to William T. Peck, instructed by Mr. Edward H. Cutler, in the Providence High School.
